The City Council met on Monday evening and passed a resolution with reference to widening Iron Avenue. The order will be published next week.

The snow birds have flocked to this country in great numbers during the cold, snowy weather. At times the streets are filled with them—and this is no "fish story."

The vast number of new cutters in this country is surprising. Time was when a cutter was unknown in Salina, and the wooden runner was a luxury in sleigh riding.

We notice that there were 670 voters on the Salina petition to the Legislature on the female suffrage question—the largest petition presented from any of the counties.

The law term of the District Court commences on Monday, Feb. 16. Up on that day the new judge will make his first appearance upon the bench of the district court of Salina county.

The youthful skater now labors over a bit of rough ice with so much enthusiasm, that he becomes totally unfit for the domestic and unheated occupations of "going for milk" or "bringing in the wood."

The city building seems to be the headquarters of the "National Republican party"—whatever that is—(if a sign means anything). Better change the word "Republican" to "Democratic," and it will be more appropriate.

The installation of the newly elected officers of Bridge Post, G. A. R., took place at Bridge school house last Monday evening. Following the installation came a fine supper furnished by the ladies. The evening was most pleasantly spent—the old vets enjoying themselves as they always do on such occasions.

Now that the various official rooms at the court house have been renovated and redecorated from dinginess, it would be well to extend the spirit of reformation into the court room—absolutely the most forbidding "shrine of justice" in the country.

A very pleasing and satisfactory entertainment was the special given by the ladies of the Episcopal church, at the home of Col. E. C. Culp, last Tuesday evening. There was a large attendance, fine music and refreshments.

The "general average" of the reports about the coming wheat crop in Salina county is about as follows: The crop was not in nearly so good condition before the onset of winter as it was last year previous, but that its condition must be improved by the countenance covering of snow.

Mr. Ed. R. Tuttle, of the Union Pacific Railway, smiled pleasantly upon us last Monday. He has been in New Orleans since the opening of the exposition. He does not present a very bright picture of the big show. All is yet chaos in the exhibition buildings, and the weather has been frightful.

A few Salina county citizens are intently watching the Oklahoma racket, with a view to settling in that country at the first opportunity. From the present outlook it would seem rather a hazardous experiment to do much prospecting for land in that section. The troups might shoot!

There has been a long quiet in Salina county on the subject of new railroads. The B. & M., and T. & S. & W. seem to be frozen up with the rivers, with no prospect of extension towards Salina. Some talk of another grand jury for the April term of court. The Judge and Commissioners will be sustained in calling one, if they deem it necessary. The voters have spoken for the enforcement of the laws of the land. If convictions of law breakers cannot be made without the aid of the grand jury, the jurors should be immediately summoned. No "monkey work" about this matter will be endured.

"What did you think of Fay Templeton?" was asked by every one last Saturday morning. Public opinion as to the performance may be summed up about as follows: The play of "Grip-Grip", brought! No substance at all. Fay Templeton, a cute, vivacious actress with a fair voice, a good performance hardly worth a dollar, but last opera singing anyway! Connoisseurs in make up a little "dizzy". Nearly every child in the hall was reserved. Quite a crowd in the gallery. It was close to a \$100 house.

The old settlers of Salina county will regret to hear of the death of Mrs. Catherine Link, which occurred last week Wednesday at Minneapolis. She was buried last Saturday. Mrs. Link was one of the earliest settlers of Salina county. Her farm was originally the Baell place at the junction of the Saline and Smoky Hill rivers. A few years ago, she removed to Minneapolis, Ottawa county, near there, where she has since resided. She has always enjoyed the esteem of her large circle of acquaintances, and her death will be greatly regretted.

While he will be engaged in the practice of law to some extent in Judge Fisher's office, he will also fill the important position of stenographer for the office. While we regret that Mr. Loomis leaves Salina, we are pleased to hear of his being advanced to a place so important. Loomis has in him the usual of which good lawyers are made, and we expect to hear of splendid things done by him in his profession.

Home poets have kept as pretty busy during our newspaper experience, and we have never been compelled to invite a foreign muse to turn our newspaper columns into rhyme. But an uninvited muse from Abilene has assailed us with a long musical reflection upon "The Maiden of the Glen." The production is long and abounds in metrical wonders. The "star" is as follows:

"The Maiden of the Glen," by the author of "The Maiden of the Glen," is a long and musical reflection upon "The Maiden of the Glen." The production is long and abounds in metrical wonders. The "star" is as follows:

This new volume in poetry parts his august name in the middle, as is the wont of poetical geniuses. In that respect he has done nicely. The poetry we firmly but respectfully refer to the dusty shelves of our office—to be retrieved when the weather grows warmer.

Mr. A. J. Seelman is not as well as common. He has been confined to the house for over a year. The
